<sup>+</sup> Figures do not include NGLs and oil from nonconventional sources.

\* Includes approximately one-half of Neutral Zone production.

\*\* Includes the U.K. offshore, Norway, Denmark, The Netherlands offshore, and Germany offshore.

\*\*\* Does not include North Sea.

<sup>1</sup>Includes crude oil, lease condensates, natural gas plant liquids, other hydrocarbons for refinery feedstocks, refinery gains, alcohol, and liquids produced from nonconventional sources.

**Highest pressure:**

30,440 psi (210 MPa)  
LWD world record  
Gulf of Mexico, 2006

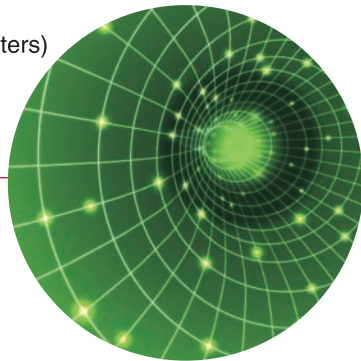

**Highest temperature:**

379°F (193°C)  
LWD world record  
North Sea, 2005

**Highest dogleg:**

61° per 100 feet (33 meters)  
LWD world record  
Saudi Arabia, 2007

**Deepest offshore:**

34,189 feet (10,421 meters)  
Including deepest  
LWD data transmission  
Gulf of Mexico, 2005

# Going to extremes for you

As the world record holder in several **directional drilling services** categories, Weatherford knows that, when it comes to reliability, you have to go to extremes. That's why we build our MWD/LWD and rotary-steerable systems to withstand hostile environments better than the rest.

## From routine to extreme, we deliver.

Weatherford's drilling systems greatly reduce well construction costs with faster ROP, higher LWD logging speeds and smoother boreholes—making them ideal for both routine and extreme applications.

To learn more about how our full suite of directional drilling, LWD and rotary-steerable systems are engineered for reliable and repeatable performance, visit [weatherford.com](http://weatherford.com).

Our business is built **All Around You.**

**Drilling** | Evaluation | Completion | Production | Intervention
