<sup>+</sup> Figures do not include NGLs and oil from nonconventional sources.

\* Includes approximately one-half of Neutral Zone production.

\*\* Includes the UK offshore, Norway, Denmark, The Netherlands offshore, and Germany offshore.

\*\*\* Does not include North Sea.

### WORLD OIL SUPPLY AND DEMAND<sup>1</sup>

Million BOPD	2007			2008		
	Quarter	2nd	3rd	4th	1st	2nd
<b>Supply</b>	84.17	84.23	85.28	85.32	85.78	
<b>Demand</b>	84.89	85.56	86.94	85.98	85.19	

Source: US DOE/EIA

<sup>1</sup>Includes crude oil, lease condensates, natural gas plant liquids, other hydrocarbons for refinery feedstocks, refinery gains, alcohol, and liquids produced from nonconventional sources.

# Build better boreholes.

**Weatherford's Revolution Rotary-Steerable Service helped BP Indonesia achieve better than anticipated production, incident-free, from a multi-well, shallow-gas, extended-reach project while saving more than \$1.25 million.**

Better boreholes mean better wells. Weatherford's **Revolution® Rotary-Steerable** Service integrates point-the-bit rotary-steerable technology with the industry's most robust MWD and LWD tools, global real-time operations and drilling optimization support. So, you can steer precisely and efficiently to target and leave a borehole that is smoother, cleaner and easier to case and complete. That means you can get production on line faster, with fewer problems. And, the Revolution system's compactness and design simplicity reduce cost and ease logistics – all to help you build **better recovery, better profit and better value** for your asset.

Start building better boreholes, better wells and better value today.
